

IMPORTANT MEMBERSHIP OPPORTUNITY HELP BOOST THE 2nd AMENDMENT

The next Commemorative issue of Bill of Rights Sentinel will soon be in production! As requested by many of our members, we are once again filling the new Sentinel with "intellectual ammunition" in an effort to preserve All the Bill of Rights for All People.

This special issue honors Aaron Zelman, JPFO founder as visionary for 21 years. He has passed from this world; may his memory be for a blessing. Many of you already know of Aaron's heroic accomplishments – frequently working with a bare-bones budget. For the remarkably impressive summary, please visit: http://jpfo.org/filegen-a-m/freedom-flyer.htm We are sending this letter out to email alert subscribers at this time to give them first chance at becoming a part of this publication. An additional alert will follow in the near future with an opportunity to advertise as a business.

With our Executive Director, Charles Heller, and a number of other writers and editors, this Sentinel promises to be the most informative you have received to date.
